Xperience by Kentico SaaS.

Managing infrastructure, security, and updates can be a headache. Xperience by Kentico SaaS removes this burden, offering a managed cloud service so you can focus on what truly matters—delivering outstanding digital experiences.

Xperience by Kentico SaaS is a digital experience platform in Kentico's cloud.

Unlike third-party hosting solutions, Kentico's cloud infrastructure is designed specifically for the Xperience by Kentico platform, ensuring seamless performance, security, and scalability. When you choose Xperience by Kentico SaaS, you're not just selecting a hosting solution—you're investing in a high-performance, fully optimized environment supported by the team that built the product.

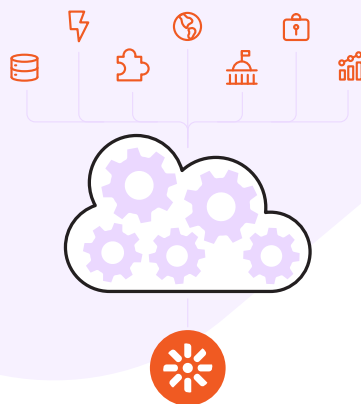

- ✓ **Eliminate IT headaches:** Kentico manages hosting, infrastructure updates, and security for you.
- ✓ **Stay in control:** Choose when and how updates are applied.
- ✓ **Enjoy peak performance:** Our infrastructure is built for Xperience by Kentico.
- ✓ **Benefit from enterprise-grade security:** Single-tenant architecture keeps your data safe.
- ✓ **Plan with confidence:** Fixed pricing ensures predictable costs.

A decorative graphic featuring several circles of different colors and sizes. At the top left, there is a small orange circle and a larger white circle with a thin black outline. On the right side, there is a large solid purple circle. At the bottom, there is a large light purple circle and a smaller bright blue circle.

The 5 key benefits of Xperience by Kentico SaaS.

1

Kentico manages the cloud, so you don't have to.

Leave the infrastructure to us. Kentico handles hosting, scaling, security, monitoring, and maintenance, giving you peace of mind that your digital experience platform (DXP) is in expert hands.

- **Kentico takes care of it all**—no need to manage servers, databases, or security updates to infrastructure.
- Global deployment options ensure **high availability in multiple Microsoft Azure data centers**.
- Regular Xperience by Kentico product refreshes mean you can **quickly run the latest version without disruption**.
- **Reduces the risk of issues before they impact your business** with 24/7 monitoring and support.

With Kentico managing the cloud, your team can focus on building engaging digital experiences instead of dealing with IT challenges.

2

Stay in control.

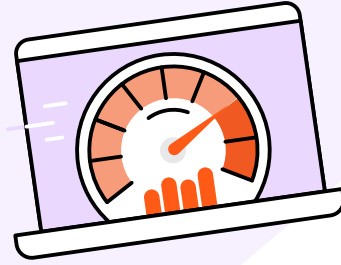

Unlike traditional SaaS models where updates are forced, Xperience by Kentico SaaS gives partners and customers control over when and how DXP updates are applied.

- You have **full access** to the cloud environments, including user access control, data backups, and the ability to reject service changes that don't align with your tech stack.
- **You decide** when to apply new platform features and updates—keeping your business priorities first.
- **Enjoy smooth, reliable rollouts** with pre-configured automated deployment pipelines and flexible deployment environments (QA, UAT, Production).
- Self-service backup and restore options put **disaster recovery in your hands**.

**Maintain control
over your digital
experience while
Kentico handles the
heavy lifting.**

3

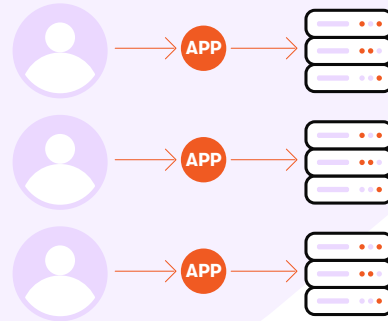

Infrastructure designed by Kentico for optimal performance.

Most hosting providers offer generic cloud solutions. Xperience by Kentico SaaS—built specifically for the platform, ensuring seamless integration and peak performance.

- **Optimized infrastructure for Xperience by Kentico**, built on Microsoft Azure cloud technology.
- Auto-scaling **ensures performance stability, even under heavy traffic.**
- **Get real-time insights** into your system's health from integrated monitoring tools.
- **Speed up content delivery** with built-in content delivery network (CDN).

Your digital experiences load faster, scale effortlessly, and run at peak efficiency—all without extra configuration.

Single-tenant architecture for security, business continuity, and data residency compliance.

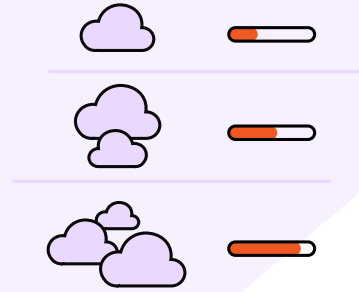

Unlike shared multi-tenant SaaS environments, Xperience by Kentico SaaS is single-tenant by design, meaning your instance is isolated, secure, and fully compliant with data regulations.

- **Enhanced security** with Web Application Firewall (WAF), DDoS protection, and full encryption. Discover more in the [Kentico Trust Center](#).
- **Data residency compliance** — choose your Microsoft Azure region to meet local regulations.
- **Built-in disaster recovery** for maximum uptime and resilience.
- **Complete control over your instance** — you're not sharing resources with other clients.

**Your data is
private, secure,
and always in
your control.**

5

Predictable cloud pricing that you can rely on.

Unlike consumable cloud services that fluctuate with usage, Xperience by Kentico SaaS offers fixed, transparent pricing, so you always know what to expect.

- **No surprise costs** — pricing is based on transparent ‘Cloud Levels’, and any quota exceedance is addressed through discussion and planned adjustments, meaning **no unexpected overage fees**.
- Choose a Cloud Level that contains varying specs of bundled cloud services, or a customizable option to **meet your needs**.
- **Simple, bundled pricing** includes cloud infrastructure, maintenance, and licensing.
- **Scalable resources**—upgrade storage, bandwidth, or email quotas without moving to a higher Cloud Level.

**Enable your
finance team
to plan budgets
confidently
without unexpected
cloud bills.**

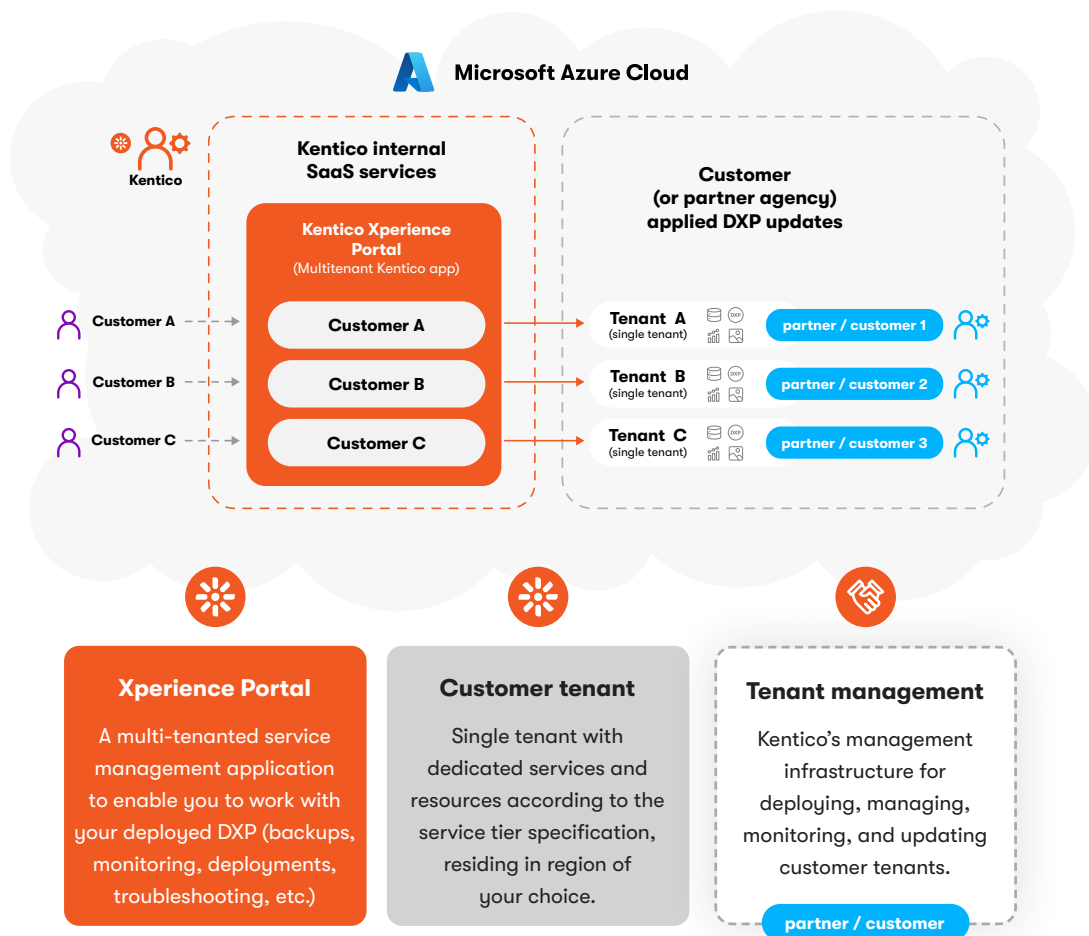

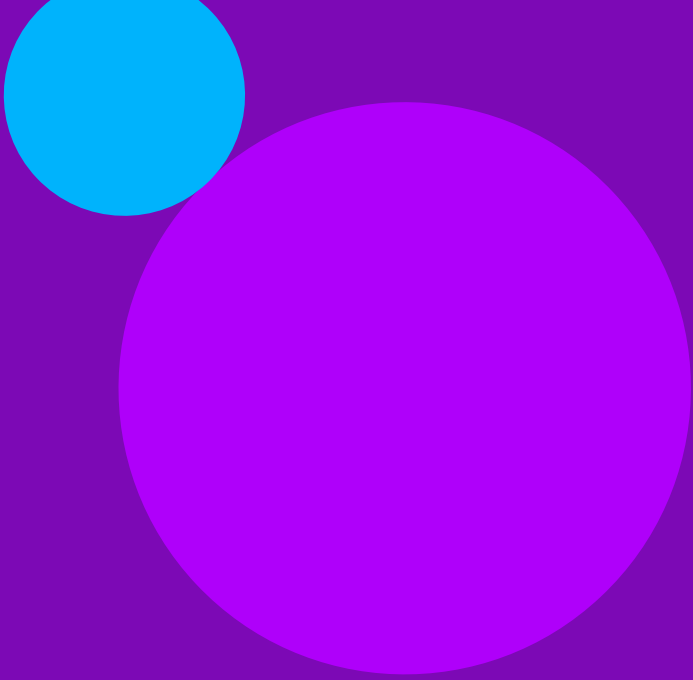

How does Xperience by Kentico SaaS work?

Xperience by Kentico SaaS is purchased via a **single subscription license covering the Xperience by Kentico application and Kentico-managed cloud infrastructure and services.**

Kentico designs, configures, and manages a Microsoft Azure subscription and provides services and cloud resources according to a client's licensed cloud entitlement. Learn more about the license model on our [How to buy](#) page.

While Kentico provides and supports the cloud, customers (and their agency partners) can manage the Xperience by Kentico DXP via the Xperience Portal and Tenant Management infrastructure.

Talk to us about your upgrade today.
