Kentico Named a 2017 Top Rated CMS Platform by Software Users on TrustRadius
Ranking based on more than 60 in-depth reviews and user ratings

Bedford, New Hampshire, USA, March 16, 2017 – Kentico Software, a fast-growing software company with offices in Europe, Asia-Pacific, and North America, today announced it has received a 2017 Top Rated badge for Content Management Systems. The badge comes from TrustRadius, a leading website where end users share real-world insights of business software through in-depth reviews and networking. This honor is rather distinctive because it represents the true voice of customers—based solely on how end users have rated the Kentico platform.

Scored 9.0 or Better in Five Key Areas
In its Content Management System TrustMap™ published in March, 2017—a visual depiction that ranks CMS products based on end-user satisfaction ratings and research frequency by prospective buyers—Kentico scored better than 9 out of 10 in five key areas:

Likelihood of recommending Kentico:	9.0 out of 10
Likelihood to renew Kentico:	9.9 out of 10
Usability:	9.0 out of 10
Support:	9.4 out of 10
Implementation:	10.0 out of 10

"All the Power, None of the Hassle"
Kentico also did very well in terms of verbatim comments, with end users reporting that "using this CMS is a breeze", that it has become "our preferred tool of choice", and "scales extremely well". One user described Kentico as "a feature-rich tool at a great price point", while another said they are "starting to replace even large projects that normally would warrant a 'heavy duty' CMS".

"This is the second time in recent years that our customers have given us very high marks through the TrustRadius venue," said Kentico Founder and CEO Petr Palas. "Of particular note is the fact that we scored a perfect 10 in the implementation category. That speaks volumes about the caliber of Kentico partners all around the globe."

About Kentico
Kentico's product line includes **Kentico EMS**, the all-in-one CMS, E-commerce, and Online Marketing platform and **Kentico Cloud**, the comprehensive cloud-first headless CMS and digital experience platform.

Kentico EMS' rich selection of out-of-the-box web parts, easy customizations, and open API quickly gets websites operational. The all-in-one platform combines a full set of integrated solutions, including Online Marketing, E-commerce, Online Communities, and Intranet and Collaboration. Kentico EMS allows you to manage contacts and campaigns, track the customer journey, provide global e-commerce functionality, and measure and analyze the results to create and manage customer experiences easily in a dynamic business environment.

Kentico Cloud is the cloud-first headless CMS and digital experience platform. Users can manage structured content for multi-channel delivery, use the API-first CMS to display that content on any website or device, and track visitor interactions to personalize the digital experience.

Kentico Software was launched with one vision in mind—to build exceptional digital platforms that allow clients to connect with their customers, help them surpass their business goals, and achieve digital marketing and e-commerce success. Kentico's 24/7 support and 7-day bug-fix policy help customers deliver projects on time and budget.

Founded in 2004, Kentico Software is a Microsoft Gold Certified Partner headquartered in the Czech Republic with offices in the US, UK, Netherlands, and Australia. Kentico Software has 1,000 digital solution partners and powers 25,000 websites across 100 countries. Customers include Gibson, Twinings, Ingram Micro, Mazda, Kingspan, Hunter Fan, Starbucks, and Allergan.
