Kentico Makes Top 20 List of CMS Solutions

Capterra recognition is third industry award earned this year

Bedford, New Hampshire—May 18, 2017—Kentico Software, a fast-growing CMS and cloud software company with offices in Europe, Asia-Pacific, and North America, continued its ascent in the marketplace in May by picking up its third industry award of the year. It was named one of the world's top 20 content management solutions by Capterra, a web-based service that reviews software products for more than two million buyers of business software every month. Both the Top 20 CMS report and the full review of Kentico can be viewed on the Capterra website.

Capterra's recognition follows Kentico being named A Top-rated CMS Platform by Software Users of TrustRadius in March and being recognized as a "High Performer" on G2Crowd's Grid for Web Content Management in February.

"It's an exciting time for Kentico," observed CEO and Founder Petr Palas. "Our popular Kentico Enterprise Marketing Solution (EMS) continues to grow in recognition, while at the same time we are pursuing our dual-product approach and rolling out the Kentico Cloud platform. We are committed to giving customers a growing range of options in digital marketing and customer experience."
